Interconnect-SNW-Rev 3.0 - Changes without prior notice

As a member of the original MU connector product development team, SANWA can now offer the widest variety of MU connectors and associated products in the industry. SANWA MU Series connectors include simplex, duplex, and uniboot varieties, as well as adapters and backplane solutions for single, multimode, and APC applications. Because they're small form factor (SFF), they offer the benefit of high-density packaging with high optical performance, using 1.25mm OD ceramic ferrules.

Application

- Local Area Networks (LANs)
- Telecommunications
- Fiber-to-the-Home (FTTH)

OVER THE WORLD

SANWA product selection offers a wide range of high-quality and reliable solutions for various applications. Fiber optic technology is known for its ability to transmit data at incredibly fast speeds over long distances, making it ideal for telecommunications, networking, and data center environments.
