# MDC DUST SHUTTER ADAPTERS

INDUSTRY-FIRST VSFF (VERY SMALL FORM FACTOR) IP5X DUST SHUTTER ADAPTER

NEW DESIGN

PATENT PENDING
Dustproof and laser protection shutter adapter
Plastic Shutter Adapter

Laser protection shutter adapter
Metal Shutter Adapter

IP5X SHUTTER DESIGN TESTED BASED ON IEC 60529 DEGREES OF PROTECTION

PASS

No Dust found

Each of the three ports is equipped with an independent, movable shutter. This unique design ensures that dustproof performance is maintained even when one or two ports remain unused.
The adapter is engineered to prevent the ferrule from contacting the shutter during connector insertion, effectively eliminating the risk of contamination on the ferrule end-face.

KEY FEATURES AND BENEFIT

The SANWA MDC Dust Shutter Adapter is the industry's first VSFF (Very Small Form Factor) with built-in IP5X-certified dust shutters, ensuring superior protection against dust intrusion.
The design is under patent application and matches the width of the standard MDC 3port adapter, allowing for seamless integration into existing SC footprint panels.

APPLICATIONS

• Data centers
• Ideal for environments where reliable, high-performance connectivity and high-density mounting are crucial.

BACKWARD COMPATIBLE ADAPTERS

Upgrade your connector density effortlessly with our range of adapters, designed to fit the same panel cutout as LC duplex adapters.
